DOUBLE COOP:

DC

Double Cooping is allowed for large fowl birds only. This means the single coop is opened to double it's size to allow for larger birds with long tails, massive size, etc. The cost of double cooping is sometimes charged a double entry fee since the bird is taking up two coop (cage) holes. Example: Entering a LF Brahma cock requesting a double coop. If the entry fee is \$3.00 you will be expected an additional fee as designated by the host club for using two holes for this one bird. Double fee would be \$6.00 for using two holes. Some shows may charge less, be sure to read your entry form.
